

MSE recognized by Inc Magazine for second consecutive year

Van Nuys, California – Micro Solutions Enterprises (MSE), the industry leader for quality compatible cartridges, is proud to be recognized again as one of America's fastest growing private companies. This represents the second consecutive year that MSE qualified for the Inc 5000.

“Being recognized on the Inc. 5000 for the second year in a row is an incredible honor.” said Avi Wazana, CEO. “MSE has experienced tremendous growth thanks to our highly talented employees, loyal customers and supporting vendors. Together, we have produced remarkable results and we would like to thank these people and companies for their support over the years.”

The 2008 Inc. 5000 list measures revenue growth from 2004 through 2007. To qualify, companies must be U.S.-based and privately held, for profit, independent – not subsidiaries or divisions of other companies – as of December 31, 2007, and have had at least \$200,000 in revenue in 2004, and \$2 million in 2007. MSE’s three-year sales growth rate more than 71% placed them on this prestigious list.

“Our second annual Inc. 5000 continues the most ambitious project in business journalism,” said Inc. 5000 Project Manager Jim Melloan. “The Inc. 5000 gives an unrivalled portrait of young, underreported companies across all industries doing fascinating things with cutting-edge business models, as well as older companies that are still showing impressive growth.”

The Inc. 5000 list is the most comprehensive look at the most important segment of the economy – America’s independent-minded entrepreneurs. These companies represent the backbone of the U.S. economy. The 5000 companies that made the list reported aggregate revenue of \$185 billion and median three-year growth of 147 percent. Most important, the 2008 Inc. 5000 companies were engines of job growth, having created more than 826,033 jobs since those companies were founded.

Micro Solutions Enterprises (MSE) is an STMC Compliant Company utilizing ISO 19752 quality testing along with patented technologies to manufacture a full line of high-quality compatible toner cartridges, MICR toner cartridges, inkjets and thermal transfer ribbons. MSE’s Quality has been voted to be the industry’s best for 4 consecutive years and MSE’s manufacturing capacity exceeds 300,000 toners and 500,000 inkjet cartridges per month. The company owns and operates 285,000 square feet in California and Pennsylvania as well as additional distribution facilities in Canada, the Netherlands, Brazil and Israel. MSE offers full solutions for outsourcing, private labeling, private packaging, and blind drop shipping. The company also offers award-winning sales training, marketing materials and additional value-added services.
