

MSE Expands DELL Compatible Offering with Dell 1720 High Yield.

VAN NUYS, CA - Micro Solutions Enterprises (MSE), the industry leader for quality compatibles, announces the release of the compatible Dell 1720 High Yield Toner Cartridge.

“Our high yield version of the Dell 1720 and 1720dn is also compatible with the IBM 1612 and IBM 1622 cartridges. This MSE product matches the OEM for quality and print clarity. It was also yield tested using the OEM’s own methodology of measurement ISO 19752 and the results showed our version had a 6,000 page yield, twice that of the standard version. The MSE cartridge will reduce this printer’s per page cost substantially, especially when you factor in a monthly cycle of about 25,000 pages,” explains Yoel Wazana, President of MSE.
