

# Micro Solutions Enterprises Ranked No. 23 on the 2005 Deloitte Technology Fast 50

**CHATSWORTH, CA** – Micro Solutions Enterprises (MSE) is proud to announce that they have ranked # 23 in the Deloitte Technology Fast 50 Program for Los Angeles. This represents the 2nd consecutive year that MSE has been recognized among this select group.

“To rank on the Deloitte Technology Fast 50, companies must have phenomenal revenue growth over five years,” said Tim Lovoy, partner, Technology, Media & Telecommunications, Deloitte & Touche LLP. “MSE has proven to be one of the fast-growth success stories in Los Angeles, and we applaud their success and vision.”

“To make the list once is an incredible accomplishment. To make it two years in a row is an acknowledgement of our employees commitment, the value we offer to partners, and the quality recognized by consumers,” said Avi Wazana, CEO. “We would like to thank the Deloitte Technology Fast 50 for recognizing us and we congratulate all the other nominees on their tremendous success.”

## Fast 50 Selection and Qualifications

The awards ceremony on September 13th recognized the 50 fastest growing technology companies based on percentage revenue growth over a five-year period from 2000-2004. This year’s nominees reflect the diversity and talent of those in the technology industry. The companies that made this list have thrived despite continued stagnation in the economy. The annual awards program ranked, by revenue growth,

technology companies located in Los Angeles, Riverside, San Bernardino, Santa Barbara, and Ventura County. The program highlights both established and emerging technology companies in North America.

One of the requirements for the nominated companies is that they must devote “a significant proportion of revenues to research and development of technology”. Each year, MSE invests more in research and development than the previous year. As part of MSE’s continued growth, this Fall they will be moving into a new 210,000 sqft worldwide headquarters in Van Nuys, CA.

Winners of the 19 regional Technology Fast 50 programs in the United States and Canada are automatically entered in the Deloitte Technology Fast 500 program, which ranks North America’s top 500 fastest growing technology companies.
