

# MSE Welcomes Jeff Rey To Quality Control Manager

**VAN NUYS, CA** - Micro Solutions Enterprises (MSE), the industry leader for quality compatibles, welcomes industry veteran, Jeff Rey to Quality Control Manager.

Jeff Rey has been an industry veteran for more than 19 years. He has worked for several large cartridge remanufacturing companies across the globe and has specialized in color cartridge research and development. Rey has also invented multiple tool inventions and bulk component carrying systems used in color manufacturing as well as several conversion systems for canon and hp products. As Quality Control Manager, Rey will oversee MSE's quality and reliability at MSE's sole manufacturing facility in Van Nuys, CA.

Jeff Rey commented, "While working for other large cartridge manufacturers, I always used MSE cartridges in Research and Development facilities for standard life test benchmarking.

After years of competing with MSE it was easy to see who the industry leader in quality was.

Now, I finally have the opportunity to work for the absolute best company, with the best people and help them continue to make the world's best cartridges. When I interviewed at MSE, I saw a passion in Yoel that I have never seen from an owner, he explained a particular "flavor" that MSE cartridges possess and their quest to build "perfect systems". I was so impressed by the professionalism and poise of Yoel and his team that I actually made a decision to join them before I left the interview. In my 19 years of cartridge experience, I have never worked with such talented individuals. MSE has the reputation of having the best cartridge in the remanufacturing business, after being here for a short period of time I realize why. I wouldn't want to be anywhere else."

Micro Solutions Enterprises (MSE) manufactures a full line of high-quality compatible monochrome, color, MICR and JUMBO toner cartridges. The company utilizes more than 30 patents and patent-pending technologies in their Intelligent Re-engineering™ manufacturing process. MSE's manufacturing capacity exceeds 300,000 toner cartridges per month and 100% of all MSE products are proudly manufactured in the USA. The company owns and operates more than 260,000 square feet in California and Pennsylvania as well as additional distribution facilities in Canada, the Netherlands, Brazil and Israel. MSE offers full solutions for outsourcing, private labeling, private packaging, and blind drop shipping. The company also offers award-winning sales training, customized marketing materials and additional value-added services.
