

MSE Adds Technical Support Line for End Users

VAN NUYS, CA – Micro Solutions Enterprises (MSE) has added an internal team of trained Technical Support Representatives. They field installation and technical questions from end users by way of a direct toll-free number. This is yet another value-added benefit for MSE dealers who can now spend less time answering their customer's questions and more time selling cartridges.

MSE manufactures and distributes a full line of compatible toner cartridges, MICR toner cartridges, inkjets and thermal transfer ribbons. MSE's manufacturing capacity now exceeds 300,000 toners and 500,000 inkjet cartridges per

month. MSE owns and operates more than 253,000 square feet of space at its facilities in California and Pennsylvania as well as additional distribution facilities in Mexico, Canada, Holland and Brazil.

The company offers full solutions for outsourcing, private labeling, private packaging and blind drop shipping. MSE also offers a suite of high-end marketing tools and extensive product and sales training.
